

REZYD-HP Z71

Target heavy ends with a smart chemistry solution

ZYMEFLOW'S HARDEST WORKING CHEMISTRY

About Rezyd-HP

Rezyd-HP is a highly effective additive for dissolving/liquidizing heavy oils, tar, and asphalt for quick and safe removal. Rezyd-HP Z71 is a multi-component solvent blend with a high Kauri Butanol value, meaning it has an increased range and higher dissolution capacity. While other solvents often leave an impenetrable barrier that prevents the removal of the deposits, Rezyd-HP will soften the deposits and break them down so that the solvent can flush them away with the cutter stock. Rezyd-HP saves time and money on a turnaround by reducing mechanical cleaning requirements while remaining low hazard and easy on your waste-water system.

Benefits

Flexibility

A cutter stock circulation is performed on the bottom circuit including exchangers. Rezyd-HP added to enhance penetrating effect of the cutter stock, breaking down deposits within the circuit.

Time Efficient

Rezyd-HP works fast and will drastically reduce the need for mechanical cleaning during turnarounds and maintenance periods.

Low Hazard

Rezyd-HP is 100% biodegradable and waste water friendly. Rezyd-HP is not a petroleum or citrus/terpene-based product and does not contribute to VOC's.

REZYD-HP Z71

ZYMEFLOW'S HARDEST WORKING CHEMISTRY

At A Glance

Bottom of the Barrel

- Loosens or eliminates hardened deposits
- Drastically reduces mechanical work
- Makes trays and packing significantly easier to remove or repair
- Also cleans filter baskets, piping, and heat exchangers

Heat Exchangers

Cleans main causes of fouling leading to efficiency loss:

- Sulfide deposition
- Polymer deposition
- Heavy asphalt/tar

Regain partial efficiency while process unit stays in service

Packed Coke Conditioning

- Strainers/Filters
- Drums
- Coke bound together with tar

Application Methods

- Cascade or Circulation using a diesel range material
- Compatible with a wide range of cutter stocks

CHEMICAL CORNER

*Higher Kauri Butanol (KB)
Value than terpene or xylene
based solvents at 165+ makes
Rezyd-HP the strongest
solvent on the market!*

Powerful & Safe
